📍 Cotonou, BENIN

👤 Profile

Software Developer with **3+ years of hands-on experience** building scalable back-end and full-stack applications using **Python, JavaScript/TypeScript, and React**. Passionate about writing clean, maintainable code and solving complex problems. Experienced in refactoring legacy codebases, optimizing performance, and delivering new features in agile, remote-ready environments. Strong product sense with a commitment to user-centric, high-quality solutions.

🧰 Experience

Software Developer (Internship)

Uptimise - HR & Payroll SaaS

Oct 2025 – Feb 2026

Cotonou, Benin (On-site)

- Refactored existing codebase : improved maintainability, reduced technical debt, and optimized system performance across the platform.
- Designed and delivered new modules from scratch including payroll processing, leave management, absence tracking, and automated payslip generation.
- Collaborated closely with senior engineers who originally designed the application, learning from their expertise and contributing to architectural decisions.
- Enhanced UI/UX by redesigning dashboards and unifying user flows, significantly reducing HR data entry time.
- Participated in code reviews, technical discussions, and agile ceremonies to drive continuous improvement.
- **Stack** : Django, React.ts, PostgreSQL, Git.

Product Engineer (Freelance)

ShopM - Multi-store Business Management

Mar 2026 – May 2026

Remote / Client

- Delivered a complete multi-store management solution including employee sessions/roles, cash register, product catalog, inventory, and stock tracking.
- Translated ambiguous business requirements into clear technical features with intuitive interfaces accessible to non-technical users.
- **Stack** : Django, React.ts, PostgreSQL.

Product Engineer (Personal Project)

NovaSneak - Sneakers E-commerce

Jun 2026 – Present

Personal Project

- End-to-end product development from concept to delivery, with MVP built to validate user demand before scaling.
- **Stack** : HTML/CSS (MVP), React planned for v2.

🎓 Education

Bachelor's Degree in Computer Analysis and Programming

ENEAM – Benin

2022 – 2025

🌟 Certifications

- freeCodeCamp – Scientific Computing with Python – May 2026
